

ResQ® PATH-5000

SPECIFICATION SHEET

The ResQ® PATH-5000 is an ultra portable rapid deployment inflatable access path. Used for static rescue operations, the path provides an essential platform for any rescue unit wishing to access casualties across hazardous or undeterminable terrain including ice, snow or mud. Composed of Hypalon, the path is extremely lightweight and can be transported manually or in a soft valise when fully deflated. Fitted with attachment points on both ends, the path have the capability to be connected together therefore creating a larger surface area if required. The ResQ® PATH-5000 is also available in two other sizes; PATH-3000 and PATH-10000.

STANDARD FEATURES*:
