

ResQ® SLED-10

SPECIFICATION SHEET

PRODUCT CODE:

The ResQ® SLED-10 is a highly buoyant and manoeuvrable piece of equipment designed to operate in various water, mud and ice environments globally. The sled has the capability to achieve a greater load/crew burden due to the addition of Hypalon sponsons/tubes which provide a more stable working platform during operation. Inflation/deflation is simple via Leaffield valves fitted on the sponsons/deck, which are also equipped with Pressure Relief Valves (PRV's) to avoid over-inflation, allowing the sled to be deployed rapidly in an emergency. The ResQ® SLED-10 is also available in two other sizes; SLED-5 and SLED-3.

STANDARD FEATURES*:

Material:	Hypalon	Air Volume:	1800L
Length overall:	4.00m	Packed Dimensions:	1.10m x 0.60m x 0.60m
Beam Overall:	2.10m	Telescopic Paddles:	2
Weight:	45 kg	Soft Valise:	Yes
Load Capacity:	850kg	Inflation Hand Pump:	Yes
Persons:	10	Repair Kit:	Yes
