

# ResQ® SLED-5

## SPECIFICATION SHEET

The ResQ® SLED-5 is a highly buoyant and manoeuvrable piece of equipment designed to operate in various water, mud and ice environments globally. The sled has the capability to achieve a greater load/crew burden due the addition of Hypalon sponsons/tubes which provide a more stable working platform during operation. Inflation/deflation is simple via Leafield valves fitted on the sponsons/deck, which are also equipped with Pressure Relief Valves (PRV's) to avoid over-inflation, allowing the sled to be deployed rapidly in an emergency. The ResQ® SLED-5 is also available in two other sizes; SLED-3 and SLED-10.

### STANDARD FEATURES\*:

Material:	Hypalon	Air Volume:	580L
Length overall:	3.20m	Packed Dimensions:	0.80m x 0.40m x 0.50m
Beam Overall:	1.20m	Soft Valise:	Yes
Weight:	25kg	Inflation Hand Pump:	Yes
Load Capacity:	400kg	Repair Kit:	Yes
Persons:	5		

\*Specification information may be subject to change in accordance with © Specialised Inflatable Technology Limited's continuous line of improvement policy.

### OPTIONAL FEATURES:

Colour

Signwriting

Rapid Inflation Kit
