

ResQ® SLED-ICE

SPECIFICATION SHEET

Specially designed for ice and soft ground/mud rescue operations, the ResQ® SLED-ICE is the perfect tool for individuals operating in often treacherous areas where conducting a casualty extraction can be extremely difficult. Sporting extended sponsons, the sled provides a stable platform for crew whilst allowing casualties to be recovered rapidly and safely. Weighing only 27kg, the ResQ® SLED-ICE is ultra portable when stowed fully deflated in its valise and features carrying handles when inflated for easy handling.
