

WHITE WATER RAFT-3700

SPECIFICATION SHEET

The WHITE WATER RAFT-3700 (WWR) is a lightweight, rapid deployment raft specifically designed to engage in challenging flood and water rescue evacuations. Featuring enlarged sponsons, the raft allows a larger payload allowance whilst maintaining stability during application. Leaflet valves installed on the deck/sponsons ensure inflation/deflation is effortless, whilst over-inflation is prevented via a Pressure Relief Valve (PRV) safety system. Transportation of the WWR is simple via integrated handles when inflated or via a stowage valise when fully deflated. The WWR is also available in the following variants; WWR-4300 & WWR-5000.

STANDARD FEATURES*:

Material:	Hypalon	Air Volume:	1740L
Length overall:	3.70m	Packed Dimensions:	0.80m x 0.80m x 0.50m
Beam Overall:	1.75m	Paddles:	2
Weight:	37kg Approx.	Soft Valise:	Yes
Load Capacity:	300kg	Inflation Hand Pump:	Yes
Persons:	4	Repair Kit:	Yes
