

# WHITE WATER RAFT-4300

## SPECIFICATION SHEET

The WHITE WATER RAFT-4300 (WWR) is a lightweight, rapid deployment raft specifically designed to engage in challenging flood and water rescue evacuations. Featuring enlarged sponsons, the raft allows a larger payload allowance whilst maintaining stability during application. Leaflet valves installed on the deck/sponsons ensure inflation/deflation is effortless, whilst over-inflation is prevented via a Pressure Relief Valve (PRV) safety system. Transportation of the WWR is simple via integrated handles when inflated or via a stowage valise when fully deflated. The WWR is also available in the following variants; WWR-3700 & WWR-5000.

### STANDARD FEATURES\*:

Material:	Hypalon	Air Volume:	2480L
Length overall:	4.30m	Packed Dimensions:	0.90m x 0.90m x 0.50m
Beam Overall:	2.00m	Paddles:	2
Weight:	60kg Approx.	Soft Valise:	Yes
Load Capacity:	450kg	Inflation Hand Pump:	Yes
Persons:	6	Repair Kit:	Yes

\*Specification information may be subject to change in accordance with © Specialised Inflatable Technology Limited's continuous line of improvement policy.

### OPTIONAL FEATURES:

Colour	Signwriting	Rapid Inflation Kit
