

# WHITE WATER RAFT-5000

## SPECIFICATION SHEET

The WHITE WATER RAFT-5000 (WWR) is a lightweight, rapid deployment raft specifically designed to engage in challenging flood and water rescue evacuations. Featuring enlarged sponsons, the raft allows a larger payload allowance whilst maintaining stability during application. Leaflet valves installed on the deck/sponsons ensure inflation/deflation is effortless, whilst over-inflation is prevented via a Pressure Relief Valve (PRV) safety system. Transportation of the WWR is simple via integrated handles when inflated or via a stowage valise when fully deflated. The WWR is also available in the following variants; WWR-3700 & WWR-4300.

### STANDARD FEATURES\*:

Material:	Hypalon	Air Volume:	2700L
Length overall:	5.00m	Packed Dimensions:	1.00m x 1.00m x 0.60m
Beam Overall:	2.00m	Paddles:	2
Weight:	71kg Approx.	Soft Valise:	Yes
Load Capacity:	750kg	Inflation Hand Pump:	Yes
Persons:	10	Repair Kit:	Yes
